At Cipzer, we are a team of experienced professionals working in this field from past many years . We work with our almost expertise and knowledge and we aim to serve our customers the best. We strive to develop innovative and natural product solutions for the masses based on the Herbal System of Medicine. We changed along with time and you can see that within our products as how we have developed them preserving the traditional ways of making it along with the new age and improved packaging. Before we start telling you about ourselves, our vision and our mission, we would like you to know the basic of what Herbal medicine is all about. Traditional medical systems are easily accessible, cheaper and relatively safer than other conventional medicines. Hence, the search for alternative products continues. Natural phytochemicals derived from plants are used in traditional medicine and are considered as good alternatives to synthetic chemicals. Herbal system of medicine is a great healing art as well as science. It treats a person as a whole not as a group of individual parts. It aims to improve one's mind, soul and body.

ABOUT US

We, as a product generator, believe that only selection of herbs is not the right choice to offer holistic health or care solutions, but amalgamating the use of knowledge, expertise and experience in developing perfect formulation and using those methods matter the most. This rich thinking and work only are the two phases where we have emerged as a leading manufacturer, supplier and business promoting company for Nutrition. Be it requirement for Natural products, Herbal Cosmetics, Personal Care and Home Care products, we have everything for consumers' needs that too with updated R&D practices. And this has helped in achieving unbeatable expertise in formulating some outstanding herbal products. The World Health Organization (WHO) has recognized the Herbal System of Medicine as an alternative system to cater the health care needs of human population. Herbal medicine is one of the most well-known traditional medicine systems and draws on the ancient traditional systems of medicine and cure from all over the world. We offer natural and highly effective compositions that have fetched us a distinguished space not just in domestic, but in international market also. And to reach our consumers at overseas, we continue to work hard. due to our constant and unmatched efforts, we also received ISO 9001-2000 & GMP certification and FSSAI certificate. Cipzer is an established & experienced company engaged in manufacturing and marketing finished products, Herbal ingredients & phytochemical. With a few OTC and Herbal products, our company made a foray into the market and now we are manufacturing Dietary supplement, Sports nutrition and processed foods too.

OUR CERTIFICATES

“Objectives & Philosophy”

The sole objective of the company is customer satisfaction by delivering excellent products at correct price and reliable services through our commitment, hard work and dedication. And this comes only from extensive research. Hence, with the development strategies for which we continue to thrive, we respond and reach our customers quickly. Stringent quality standard and use of eco-friendly ingredients are the two areas where we outline our competitors as at these points, we never compromise. However, sustainability, generating awareness through various channels, expansion of market and search for more products which are still not accessible or available for our customers and their needs go hand in hand. We continue to strive for products which our consumer need. Instead of taking an easy way and just giving name to the product of an established brand, we continue to work dedicatedly for our customer's needs and requirements. Even if the product or its raw materials may not have a broad market, we and our team of energetic people work constantly for the needs of those customers who seek for it. Instead of looking for number of consumers, we believe in taking qualitative approach to reach our consumers and fulfil their needs that too keeping in mind the suitability of their pockets.
